

Terra Medica Seminar

BRINGING EUROPE'S BIOLOGICAL MEDICINE INNOVATIONS TO AMERICA'S PRACTITIONERS

Pleo-Sanum and Biological Medicine - Clinical Applications

Presented by *Kimchi Moyer, L. Ac.*

Friday evening, October 15, 2010

5:30 to 10:00 p.m. - A complimentary light dinner will be served

Southwest College of Naturopathic Medicine

2140 E. Broadway Road., Tempe, Arizona. **FREE** to all current SCNM students and faculty. **\$50** for AZ licensed Naturopathic Physicians.

Contact Nick Fransen at 435-503-5193 or your local student rep, Joshua Chrystal, for more info.

Approved for CE credits (BDDT-N).

**Registration
Required. Limited
seating!**

European researchers of the past century have built upon early understanding that blood is not sterile, and that microorganisms always present in the milieu can demonstrate transfiguration and change of symbiotic and pathological behaviors as their environment changes. Biological Medicine embraces this message as a core principle – the body is a biosphere of dynamic processes influenced by internal and external environmental factors. This idea is not new for most naturopathic and integrated health care practitioners.

Kimchi Moyer will discuss the underlying principles of Biological Medicine and the Pleo-Sanum toolbox used in hundreds of clinical practices. Pleo-Sanum has been in use in European practices for over 60 years and has been available in North America for 20 years. This line is the original system of products by SANUM-Kehlbeck GmbH, in Hoya, Germany.

In this 4-hour seminar you will learn

- Pleo-Sanum therapy as part of the biological medicine approach
- History and theory of pleomorphism
- Basic concepts of milieu (terrain) therapy
- How to achieve acid-base balance through alkalizing
- Hypo-allergenic and restorative diet
- Review of the 10 categories of Pleo-Sanum remedies
- In-depth review of the isopathic fungal remedies for inflammation, bacterial, viral and fungal conditions
- Introduction to the bacterial remedies for immune modulation, Hapten therapy (Sanukehls) for elimination of residual toxins, and Polysans for elimination of inherited toxins
- Practical tips and step-by-step protocols for acute & chronic conditions

Kimchi Moyer, L.Ac.
**Biological Medicine
Consultant & Education**

Dr. Moyer have received extensive training in the field of Biological Medicine, Darkfield Analysis, Vega Testing, Biological Terrain Analysis, Homotoxicology and Pleo-Sanum therapy. Her continued studies, expertise and clinical experience allow her to successfully identify and resolve both acute and chronic health conditions in her patients. In addition, she serves as a consultant for European Biological Medicine therapy and designs nutritional programs for medical practitioners. Her enthusiastic presentation style and passion for the Pleo-Sanum approach in therapy, makes her seminars lively and informative.
